563 washington post innehaaller idag ledare betitlad swedish
meteors stop tidningen refererar foersvarsstabens kommunique
och konstaterar despite exaggarations mystery cannot be
passed off entirely as just product of wartime reflexts or
overactive imagination para tidningen citerar marquis childs
meddelande man i sverige i all maenhet ansaage raketerna experi-
ment bomber fraan peenemunde och tillaeffer while such belief
may do russians injustice it is logical outgrowth iron curtain
stop suspicion will linger that some of this strange hail was
manmade and that russians curtailed experiments in light of
furor that followed stop possibility enters to that swedish
high command announcement was tailored to allay fears during
delicate negotiations with soviet though previous swedish re-
fusal to be intimidated makes unlikely stop in any event com-
forting know majority reports apparently groundless only real
cure for this type nervous hallucinations which not peculiar to
sweden is an end to conditions of mistrust and rumor that still
grip entire world
